Based on Article: "The Role of Seed Banks in Cannabis Seed Quality"

Website: <https://theseedconnect.com>

A practical checklist for choosing a quality cannabis seed bank to ensure optimal seed performance and growth.

Checklist Items:

- ☐ **1. Verify Genetic Source**
Check for named breeders and clear strain lineage to ensure stable genetics that lead to predictable growth.
Reference Section: Quality signals that matter most when choosing seed banks
- ☐ **2. Assess Storage Conditions**
Ensure the seed bank stores seeds in cool, dry, dark places with proper stock rotation to maintain seed viability.
Reference Section: Quality signals that matter most when choosing seed banks
- ☐ **3. Check Germination Guarantee**
Look for a written germination policy that outlines the terms and conditions for seed viability support.
Reference Section: Quality signals that matter most when choosing seed banks
- ☐ **4. Evaluate Customer Support**
Ensure the seed bank provides knowledgeable and responsive support for addressing any seed-related issues.
Reference Section: Quality signals that matter most when choosing seed banks
- ☐ **5. Review Shipping Practices**
Confirm that the seed bank offers tracked shipping and discreet packaging to protect seeds during transit.
Reference Section: Quality signals that matter most when choosing seed banks
- ☐ **6. Research Independent Reviews**
Look for recent customer feedback focusing on germination rates, packing quality, and customer service experiences.
Reference Section: Quality signals that matter most when choosing seed banks
- ☐ **7. Clarify Warranty Terms**
Read the fine print of the warranty to understand what is covered and ensure it includes normal failures.
Reference Section: Claims worth trusting
- ☐ **8. Avoid Hype and Discounts**
Do not be swayed by flashy marketing; focus on the quality and handling practices of the seeds instead.
Reference Section: Claims worth trusting
- ☐ **9. Check for Transparency**
Ensure the seed bank provides clear information about their practices and does not hide behind vague language.
Reference Section: Bold claim: not all cannabis seed banks protect seed quality the same way
